Art Unit: 2875

1. The amendment filed on November 14, 2005 has been entered. Accordingly:

- Claim 1 has been amended;
- Claim 2 has been cancelled; and
- New claims 17-19 have been added.

2. On January 16, 2006, the examiner and the attorney, Mr. William L. Falk had a telephone conversation, wherein the amended independent claim 1, the dependent original claim 3, and newly added independent claim 17 were discussed. The examiner indicated that the amended calim 1 still does not include any structural limitation, which makes the invention specifically dedicated for vehicular use. The limitation "mounted on a vehicle" still is considered as intended use of the light fixture taught by Cherry et al. (US Patent No.: 5,788,579) in view of Marsico (US Patent No.: 4,164,823) and Furst et al. (US Patent No.: 6,152,590).

The examiner suggested that the following measures would overcome prior art, and would place the application in an allowable condition.

Claim 1 (amended), line 33, insert – , the vehicular lighting housing is the exterior shell of a dashboard instrument of the vehicle -- before “.” ;

Cancel dependent Claim 3; and

Claim 17, line 31, insert -- of the vehicle-- after “instrument”.

In response, Mr. Falk authorized an Examiner's amendment requiring amendments of the claims as detailed in section 3 of this office action.

A copy of the interview summary is attached herewith.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William L. Falk on January 16, 2006.

Claim 1 (amended), line 33, insert -- , the vehicular lighting housing is the exterior shell of a dashboard instrument of the vehicle -- before ". " ;

Cancel dependent Claim 3; and

Claim 17, line 31, insert -- of the vehicle-- after "instrument".

Allowable Subject Matter

4. Claims 1 and 4-19 are allowed.

The prior art of record, including Cherry et al. (US Patent No.: 5,788,579) and Marsico (US Patent No.: 4,164,823), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose an infinity effect vehicular lighting arrangement combining:

- A vehicular lighting housing being the exterior shell of a dashboard instrument of the vehicle as recited in each of amended claim 1 and newly

added claim 17 amended though the Examiner's Amendment detailed above.

The above-indicated combination; including a dashboard instrument panel with an infinity effect lighting arrangement, makes this invention unique.

Cherry et al. ('579) and Marsico ('823) each discloses an infinity effect light arrangement for a display for illusion mirror including a one-way mirror spaced from two-way mirror), and a plurality of light-emitting elements positioned between the two mirrors. However, neither combined nor individual teaching of Cherry et al. ('579) and Marsico ('823) discloses the infinity effect lighting arrangement including a lighting housing being the exterior wall of a dashboard instrument of the vehicle. Thus, neither combined nor individual teaching of Cherry et al. ('579) and Marsico ('823) meets the limitations of each of the independent claims 1 and 17.

Therefore, claims 1 and 17 are allowed over prior art.

Claims 4-16 necessarily allowed because of its dependency on the allowed base Claim 1.

Claims 18 and 19 are necessarily allowed because of its dependency on the allowed base Claim 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
